***Allowable Subject Matter***

Claims 9, 11, 15, and 25 are allowed. The new renumbered claims are: 1-4

The following is an examiner's statement of reasons for allowance:

The major difference in the claims not found in the prior art is the combination of receiving constraints relating to cell information, and selecting the first constraint, and the next constraint based on received script, and searching the cells that meets the requirements of the next constraint. See following claim features:

- a) receiving from a user an input comprising a script comprising one or more constraints relating to cell information, wherein at least one of said input constraints is selected from the group consisting of:
  - a) constraints relating to cell dimension;
  - b) constraints relating to the topology of a cell;
  - c) constraints relating to the history of the model evolution;
  - d) constraints relating to specific attributes of a cell; and
  - e) constraints relating to geometrical indications of a cell.
- b) selecting the first constraint of said input and identifying the components of the CAD system that must be accessed to find geometric cells meeting the requirements of the constraint;
- c) based on the received script, searching the cells of the model and retaining as a subset only the cells that meet the requirement of the first constraint of said input;

- d) selecting the next constraint of said input and identifying the components of the CAD system that must be accessed to find geometric cells meeting the requirements of said next constraint;
- e) searching the subset of cells and retaining in the subset only the cells that meet the requirement of said next constraint of said input; and
- f) repeating steps d) and e) for each of the remaining constraints in said input.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
